

Inserting of VAT numbers issued by other Member States in the EORI application.

VAT numbers issued **by other** Member States can be inserted in the EORI application in e-tax board/e-customs in subsection
– e-customs services

EORI

Enter the data (“Sisesta andmed”)

Save and enter the VAT numbers (“Salvesta ja sisesta VAT numbrid”)

It is possible to enter up to 98 VAT numbers.

After completion of each additional page (10 VAT numbers)

this page must be saved (“Salvesta”),

and finally you have to save (“Salvesta”) and CONFIRM (“Kinnita”) all the inserted VAT numbers.

If you do not save the inserted VAT numbers then these data will not remain in your application.

Saved data will remain in your application and you can correct the already existing data and add new data if needed.

The inserted VAT numbers of other Member States will be transmitted to the EORI central database after you have confirmed them (“Kinnita”).

If you wish to invalidate a VAT number you have already inserted, then please select column 4 “Kehtiv rida “, which you find next to the respective VAT number then select “EI” from the pull-down menu (“Kehtiv rida “, “Ei”).

If you wish to interrupt entering of the VAT numbers of other Member States, then please click the button “Loobu “ (“Loobu”).
