

# X-tee veateated

Süsteemi Impulssi poolt üle X-tee edastatavad veateated.

## Üldised vead

- Member code is missing from SOAP headers
- Member with code " + memberCode + " not found.
  - Antud koodiga x-tee klient puudub
- Problem saving attachment
  - Tehniline viga manuse (XML sõnumi) salvestamisel
- Attachment (messageRef: {}) has disallowed contentType
  - Lisadokumendi faili tüüp on keelatud
- Additional file is missing file contents
  - Lisadokumendi fail puudus päringust
- Problem reading additional file contents
  - Tehniline viga lisadokumendi faili lugemisel
- Problem uploading files to filetransfer service
- Declaration not found, mrn=%s, memberCode=%s
- Member (memberCode=%s) has no access to declaration with mrn %s.
- Unable to find a declaration with mrn " + mrn
  - Deklaratsiooni pole või kliendil pole sellele ligipääsu
- Problem writing outgoing message
  - Tehniline viga vastuse koostamisel

Lisaks tulevad veasõnumisse vead, mis tekivad

- XMLi parsimisel ja sõnumi valideerimisel vastu XSD'd
  - XML message validation failed
    - Viga XML sõnumi valideerimisel XSD skeemi vastu. Lisatud validaatori poolt leitud vead.
  - Unable to save declaration data due to invalid values
    - Tehniline viga deklaratsiooni salvestamisel
  - IE432 is only allowed with I2 or I2A profile
    - Vale profiil IE432 sõnumis
  - XML message parsed into unknown type
    - XML sõnumi sisu ja sõnumi tüüp (SOAP sõnumis) ei klapi
  - MRN is forbidden for new declarations
    - MRN väli on deklaratsiooni loomisel täidetud
  - LRN from SOAP body (%s) did not match LRN in XML message (%s)
    - LRN (functional\_reference) SOAP sõnumis ja XMLis ei klapi
  - Declaration needs to have a submitter if xroad member is not the importer (without representative.status) or the agent (with representative.status).
    - Submitter element on puudu ja teenuse väljakutsuja pole korrektselt agent või importer elementi täitnud
  - Submitter has no identification code
    - Submitter elemendi identification väli täitmata
  - Submitter with identification %s not found
    - Esitatud koodile ei leitud vastet
  - No %s permission between submitter and xroad member
    - Teenusepakkujal ei ole pääsuõigust isiku eest tegevust teha
  - Declaration with mrn %s has goods released, thus modify request needs to have a reason
    - Muutmistaotlusel vabastatud deklaratsioonile on puudu põhjus (amendmentReason väli)
- talitlusreeglite käivitamisel

## Konkreetsete sõnumite vead

### sendAsyncMessage & sendBatchAsyncMessage

- Missing LRN from SOAP body

- Submit operation has disallowed MRN in SOAP body
- Change operation called without MRN in SOAP body
- Missing messageId from SOAP body
- XML message file missing from SOAP request

### **sendBatchAsyncMessage**

- Batch request has no messages
- Batch request had messages with overlapping messageNumbers
- Batch message nr " + nr + " contains forbidden operation " + op + ".

### **completeSupervision**

- MRN missing from SOAP body
- SupervisionId value "" + id + "" empty or not a valid id
- Supervision not found with id %s and MRN %s
- "Supervision with id %s is in an incorrect state %s and cannot be completed

### **readMessageListBetweenDates**

- Missing required memberCode: " + memberCode + " or from date: " + from

### **readMessageListByMRN & readMessageListByLRN**

- No messages found with mnr

### **readMessages**

- No messages found with ids " + outMessageIds

### **queuePdfGeneration**

- MRN missing or empty
- LanguageCode missing or invalid, " + ALLOWED\_PDF\_LANGS + " are allowed

### **acceptAmendment**

- Missing MRN from acceptAmendment request
- CLIENT\_REVIEW change-request doesn't exist for declaration with mnr " + mnr

### **rejectAmendment**

- Missing MRN or reason from rejectAmendment request
- CLIENT\_REVIEW change-request doesn't exist for declaration with mnr " + mnr
